

AUTOMATED VALVE & CONTROL

Actuation ▪ Valves ▪ Controls ▪ Service ▪ Expertise

Automated Valve & Control has a wide range of Actuators in stock and ready to be mounted to any valve. We are fortunate to represent some of the finest names in the Actuation and valve Industry. Auma, Triac & RCS are some of those, others are Rotork & Ledeen.

Proudly serving you for 40 years

Our Engineering & Production Department designs & manufactures it's own mounting hardware to mount our actuators to any possible valve. We will adapt, mount and cycle test actuators on customer supplied valves or supply you with a Full Package. AVC is known for being Fast and Efficient, give us a call.

Electric Actuators

- AUMA
- TRIAC
- RCS / Dresser
- Bernard Controls

Pneumatic Actuator

- TRIAC
- Rotork
- TruTorq
- Ledeen
- Remote Control (RC)
- Bettis

Hydraulic Actuators

- Ledeen
- Rotork
- Damcos
- Quincy/Ortman
- Scana
- TRIAC

Solenoids

- ASCO
- VERSA
- TRIAC

Positioners & Regulators

- TRIAC
- Moniteur
- Moore/Siemens
- Conoflow
- Fisher
- VAC

Limit Switches & Transmitters

- Proximity Controls
- Westlocks
- StoneL
- Moniteur
- IFM Efector

AUTOMATED VALVE & CONTROL

Actuation ▪ Valves ▪ Controls ▪ Service ▪ Expertise

FAST DELIVERY WORLDWIDE SINCE 1974

Automated Valve and Control was established in 1974. We have become a leader in the valve actuation industry by delivering custom designed and expertly built solutions for your valve actuation needs. At AVC, we know that delivery time is critical. That is why we pride ourselves on providing customers worldwide with some of the fastest delivery times in the industry.

WHO ARE WE?

We are a stocking distributor for electric, pneumatic, hydraulic and manual valve actuators. We offer one-stop shopping with our CAD design capabilities and installation of actuators-to-valves and valves-to-actuators. Our facility includes a fully staffed machine shop and overhead crane capabilities. Our extensive inventory provides “off the shelf” sales of all popular actuator types and sizes, as well as most optional accessories and control kits. Our in-house technicians provide expert installation of optional electrical accessories, including switches, brakes, potentiometers, solenoids, speed controls, and others. Our technicians are factory certified members of the RCS (Raymond Control Systems) and Auma service center networks.

WHAT MAKES US UNIQUE?

In a nutshell, **expertise** and **fast turnaround**. AVC’s staff consists of professionals with many decades of experience who can provide you with a custom solution. We design and build valve-actuator assemblies for virtually any application, and we turn around quotes and orders fast.
