# AVC - Intro

- AVC is one of the actuation industry's most experienced full-service actuation houses. As **the industry leader in helping customers navigate the most complex actuation challenges**, AVC custom engineers solutions that meet the most demanding and unique requirements.
- AVC specializes in valve actuation, in-house engineering and assembly, repair, maintenance, and installation services to customers worldwide.
- Founded in 1973 by Barney Ross, AVC began as a family business. AVC has expanded into one of the industry's most capable full-service actuation houses, yet maintains the culture and spirit of a family-owned and operated business.

# AVC - Employees

- **Our Team:** AVC's experienced team is made up of application engineers who design custom valve actuation solutions that are second-to-none in the industry, and expert technicians who assemble and test each solution with laser-like precision. Most of our **19 team members** have close to **20 years** of actuation experience.  
5 of our Team Members are **certified field technicians**, they service our customers out in the field whenever needed.

# AVC - Solutions

- **Our Solutions:** AVC specializes in actuation assemblies geared for accurate control and safety, including:
  - Remote operation
  - Tie-in to existing systems (Bus Network; Mod Bus, Profibus, Devicenet etc.)
  - Operation under harsh environments; semi-submersible, explosion-proof or weather-proof solutions
  - Solenoids, positioners, and indicators
  - Fail open/close or modulating
  - Trigger mechanisms (operate at a certain level or pressure)
